His waistband is of comfortable girth, and when he leans well back, as he has a habit of doing, and gently caresses the lower pockets of his waistcoat with his white and wellkept hands, he is the picture of a man who is thoroughly satisfied with him-self. The eye of the Colonel has a gleam in which there is always a sug-

gestion of delicate railery.

He is probably mistaken for one of the Vanderbilts more frequently than the men of that family have suspected. This is due to the liabit which the Colonel has of artlessly standing in front of the big Vanderbilt mansion every morning about 9:30 for a more or less extended period, while he bestows a look of pride at St. Patrick's Cathedral, the orphan asylum and the Fifth avenue stages. Not infrequently he holds long and eloquent conversations in this position with the servant who stands obsequiously behind the Colonel and re-

In pursuance of his wish to inculcate the rudimentary principles gave a shining new nickel to each member of the class, with the remark. "It isn't much I give you, but if you apply shrewd business principles to its use you can multiply it many times for the benefit of a class fund."

Two years went by, and lot the 516 nickels invested in various ways approved by Brother Wanamaker amounted to \$5,000. On this snug little capital the Wanamaker Bible Class Botel and Land Improvement Company was organized. It bought land near Atlantic City and has just celebrated the opening of its new hotel for public guests. The prospects that the investment will be a financial success are successed by the class feel that they are excellent and the class feel that they are on the high road to fortune. It is hardly necessary to say that Brother Wanamaker's Bible class is one of the most popular classes of the kind in the It could easily double its membership. When Mr. Cannon was first sent to Congress, eighteen years ago, he then resided in this city, says the Tuscola Review, and his humble one-story cottage still stands near the Beach House. Mr. Cappon was not worth over \$10,000 at that time, but he soon after showed evidence of great prosperity, and, as Joe Mann puts it, Cannon had already learned that "public office is a private snap." He was elected a second time. and to such an extent had he prospered that he concluded Tuscola was too small for him, and he removed to Danville, where he erected one of the finest throughout in a costly manner, and still he continued going to Congress, all the time growing richer, until to-day his wealth is almost past computing.

The great mystery that surrounds the whole allair is, how does he continue to grow richer yearly, when his exare so great that any ordinary man would swamp blanch and go into bankruptcy in a short time, but with him he weems to thrive under it. The are so great that any ordinary man would swamp blusself and go into bankrupicy in a short time, but with him he seems to thrive under it. The Review has made special inquiry in

the past few days in order to ascertain how much money Cannon lavishes every year in order to be elected. There inquiries were put to certain Reworkers in this county, but who have tired of wearing the Cannon collar and refuse longer to dwell in "the house of the prince of Joseph."

Can-non's luxurious manner of living in Washington has become widely known. and the city newspapers have more than once described his princely apartments

at Washington.

A few months ago, before Cannon removed his quarters from Willard's Holel in that city, a resident of this city was in Washington, and took the trouble to ascertain from the clork what the Congressman paid for his magnificant. cent suite of rooms. The reply was \$100 per week. The rooms were furnished in the most luxurious and costly manner, and those now occupied by him at the Shoreham are said to be much finer and the most expensive in

One of the operators had her left hand badly mashed this morning at the Monumental Steam Laundry, near the corner of Thirteenth and Estreets northwest. She was setting the large roller, which is used to press bed or table too far in the machinery, between the heavy roiler. Her hand was badly mashed. She suffered excruciating pain until the machinery was taken to pieces, and she was extricated from her perflous situation. The operator's hand is flattened out, but no large bones were broken. She was taken immediately to the Emergency Hospital.

At 5 o'clock this morning there was fire discovered in houses 1206 and 1268 Eleventh street southeast and an alarm was turned in from box 526 by Officer Dyer. The buildings were owned by John B. Miller and occupied Elizabeth Gordon and Robert Dyer. The damage is estimated at

## A MAN WITH A NEW SKIN

SUDDENLY LOST THE OLD AND SLOWLY GREW THE NEW,

A Mun Who Was Skinned Alive, but Nursed Back to Life and Boogs. piled With Cuitele from

INDIANAPOLIS, IND., Oct. 14 .-- Wesley Kellar, "the man who was skinned alive," has returned to work. His case is curious. As an Hiustration of the nice powers of motern surgery it will be talked about from one end of the country to the other.

On Wednesday, July 20, Kellar fell into a steam vat at the Indianapolis Veneer Works. He was taken out as quickly as possible, but he had been scalded from the soles of his feet to the middle of his chest. One arm was all right, but the other arm was blistered to the shoulder. Huge blisters puffed up all ever the man's body, and the fluid which had exuded from the flesh to fill them had been cooked to a jelly. In removing his clothes great strips of the outside or scarf skin came off, leaving exposed the true skin underneath, cooked til it looked like a parboiled lobster. His toes and ankles were so blistered and swollen as to lose nearly all resemblance to human members.

As soon as his fellow workmen got Kellar cut of the vat they telephoneal for the company's surgeon, Dr. Ralph Perry, "There is, perhaps, one chance in a thousand of saving this man," said the surgeon when he had looked at the burns. He set to work, however, and greased Kellar from top to toe with a mixture of linseed oil and line water. Then he swathed the body in cotton wadding, from which all possible impurities and disease germs had been removed by chemicals.

noved by chemicals.

For two days and nights the case hung without less or gain. A teas-poonful of brandy was given every few hours. Then a change came. Kellar seemed to be choking. The throat be-came swollen, but this swelling was checked. The man's temperature rose a little. Fever set in. This gave great hope. The next morning Kellar asked for something to eat, and actually ate a piece of pie and drank some coffee. The news of this shocked the surgeon at first; but he said:
"I guess we'll win this fight, for a

man who can eat pie with no skin on him has life enough left to grow a new When suppuration began great care was taken to let out the pus at every point. The first dressing took three hours; the second still longer. Five days were consumed in taking off the bits of old skin, four hours each day being spent with the forceps, scissors and scalpel, removing the skin layer by layer. Not a plece as big as a dime was forced. Kellar's pluck was mar-velous. The raw surfaces were dressed

with an iodoform mixture and bandaged with soft stuffs.

Meanwhile the awamps of South Bend were being scoured for two-pound frogs. A bushel basket of these were cleaned with a germicide mixture and fed on pure food. The raw sur-faces of Kellar's body were tenderly washed with clean warm water, then with peroxide of hydrogen, which destroys pus. The utmost cleanliness and wholesomeness was insisted upon. Just before applying the frogskin the raw surface was washed with a weak solution of corrosive sublimate. Every-thing ready, the first frog was brought out. With a quick snip of the scissors its spinal cord was severed at the back of the neck. Then the loose, pearly white skin from over the abdomen was quickly taken out and thrust into a dish

of water which had been botted, but which was now merely warm.

In the water had been dropped a little of the corresive sublimate solution. Being cleansed, the skin was cut up into bits about a tenth of an inch square and applied to Kellar's body-inside in. outside out. Powdered todoform was fusted over the graft, which was sealed

tightly from impurities.

Dr. Perry made grafus on forty-two occasions. Thirty-two operations were unsatisfactory; ten were satisfactory. From each of the ten centres healthy skin radiated, until now Kellar is good as new. So Kellar has gone to work-the only

One Instance in Which It Has Built Up a Trade.

Secretary Blaine has received a letter from Carlos Crist of the Agricultural Company o Oaxaca, Mexico, stating that the treaty of reciprocity between the United States and the Sandwich Islands has built up a trade which last year amounted to \$16,183,780.

Mr. Crist says that he does not know why a reciprocity treaty such as that negotiated for Mexico and the negotiated for Mexico and the United States by Messrs. Romero and Grant would not produce equal, or even greater results, and it to, the trade between Mexico and the United States, if increased in the same proportions as that of the Sandwich Islands might in a short time amount to two thousand million dollars

The Mexicans, he says, now purchase every species of commodity produced in the United States. They cannot purchase in large quantities, because they have not the means of paying. Mr. Crist states that he has documents which would amply prove all the North American products find a

#### VERY BEAVY RAINFALLS.

Whole Counties Fronded and Great Damage Done Trains Delayed, PARKERSBURG, W. VA., Oct. 14 .-Sunday night and yesterday morning the heaviest rain for years fell in this section. All the countles north of the Little Kanawha are flooded, causing

much damage.
The Kapaz ha River is swellen for thirty right miles, and large quantities of timber, grain and logs and many houses are affect. Several farmers have

host their entire crops.
All the railroads entering here have suffered. The fourth division of the Baltimore and Ohio is entirely about doned, no less than thirty treates and bridges being washed away. On the Parkersburg Branch of this rood two culverts and bridges were washed away and all trains delayed six hours. No train has come from Wheeling store Sunday night, owing to the washing away of the Caldwell Run culvert, which almost occasioned a terrible disaster. As a passenger train was cross-ing the trestle the coaches jumped the track, but owing to the moderate speed the engineer put on the air brakes in time to catch the cars before they toppled over into the stream. The passengers were transferred.

In Ritchie County much damage is reported. No reports of loss of life have as yet been received.

### CABINET MEETING TO-DAY.

It Is Understood That an Extra Ses-sion Was Discussed.

Shortly after the President arrived at the White House he issued a call for the meeting of the Cabinet. At 12 o'clock all the members of the Cablact were present except Secretary Proctor and Postmaster-General Wanamaker. It is understood that an extra session of ROCHDALE CO-OPERATIVE SO Congress was discussed. Private Secretary Halford, when asked about the matter, said he had no information to Impart.
